4. When you start the app for the first time, you will get an **overview of all functions**.

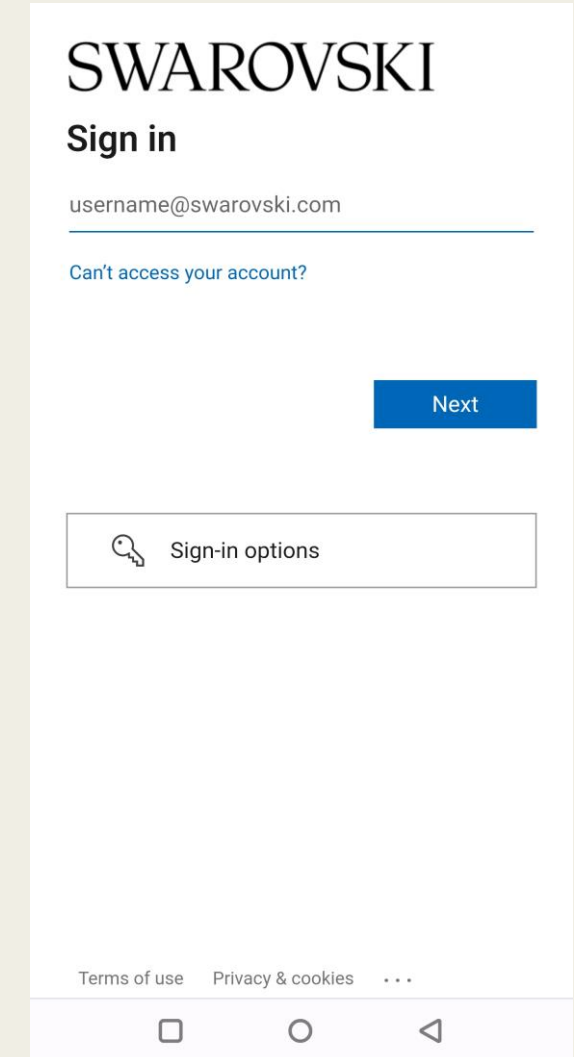

5. Now set a **PIN code** that you can use to unlock the app later. Optionally, you can also set up the existing **fingerprint or facial recognition unlocking**. (depending on your mobile device).

6. Now log in with your **Swarovski credentials**.
First enter your username in the format **u1234567@swarovski.com** or **ABCDEF@swarovski.com**.

TIP: You can find your username on your most recent **payslip**. (only in Wattens)

7. Please enter your **Swarovski password** here.

TIP: You should have already used your password to log in to Workday. If you don't remember it, please use the "forgot password" link, or contact your manager.

8. In the following step, you should receive a **code via SMS**.

TIP: If the wrong number is stored, please contact your **manager** or the **Global Service Desk**. If no number is stored, you will be asked to register it.

9. The registration is now complete. If you click on "Yes", you will remain logged in on this device for several months and only have to unlock the app via PIN or finger/face.
